

Reset Password

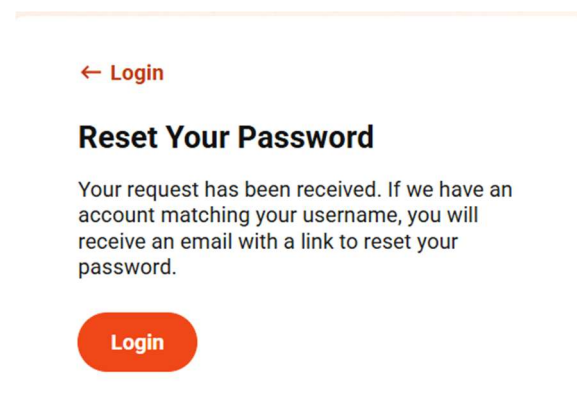

You will be given a temporary password when your account is activated. Log in using these details, bearing in mind that the username and password are case sensitive.

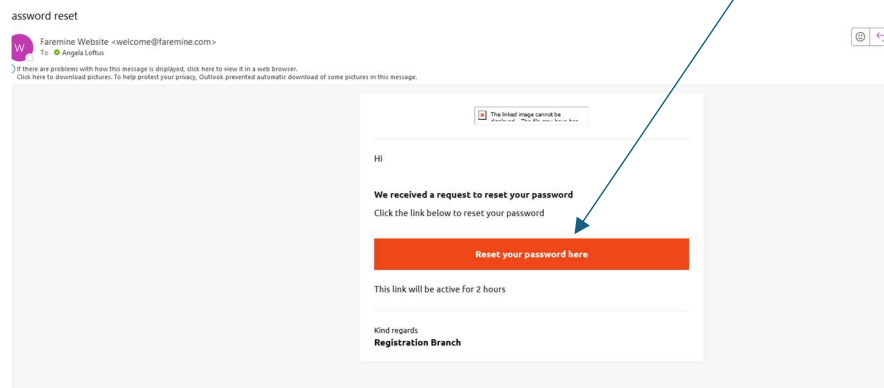

You will be prompted to reset your password. Please enter your username and click request password reset.

You will see this message, and now you need to check your emails.

You will be sent an email from welcome@faremine.com. Please check your junk folder if you do not see this email in your inbox. Click on Reset Your Password Here.

This will take you here, where you can change your password and click continue. Please make sure your password meets the criteria.

This is a screenshot of a "Password reset" form. It has two input fields: "Password" and "Confirm password", both with green progress bars. Below the "Confirm password" field is a red "Continue" button. To the right of the form is a box titled "Passwords must meet the following criteria:" with a list of five requirements, each preceded by a green checkmark: "Password contains number", "Password contains lowercase letter", "Password contains uppercase letter", "Password contains special character", and "Password length". A blue arrow points from the text "click continue" in the preceding paragraph to the "Continue" button.

Your password will be reset, and you can now log in using your new log in details. Please remember that the username and password are case sensitive.
